Nursery

Garden Chrysanthemums

Spring List
1955

4800 VAN EPPS RD.

CLEVELAND 9, OHIO

TO OUR PATRONS

It is with pleasure that we offer our 1955 spring price list, and we wish to express our thanks for the continued consideration you have given us in the past.

At this time, we wish to extend our cordial invitation to visit our planting of Mums. We are located south of Cleveland, in the Village of Brooklyn Heights, about ½ mile north of Brookpark Road, off of Schaaf Rd. Six miles southwest of Cleveland Public Square. Our gardens are at their best during the month of October.

Because most of our orders have been for rooted cuttings, for several years, we are listing only rooted cuttings this year.

Orders can be called for at the Nursery if ordered and paid for in advance. Specify on order, date you wish to call for them, then please notify by phone or postcard two days in advance, so we may have them ready for you to pick up.

We try to plant our cuttings in late afternoon or after a good rain, and we have excellent results, even as late as July 20. When planting late in the season, water daily for one week if weather is hot and dry.

If on arrival, your plants should be a little dry, put them in water to cover the roots and keep them in the water until the next morning. Then either pot up and hold until your garden is ready, or plant right out if weather permits, and garden is well prepared.

Our Mum stock is carefully selected from plants that were inspected, disease-free, and specimen plants, in our 8 acre planting of Mums. All our stock is outdoors through the blooming season.

Our plants are guaranteed true to name and in healthy condition. All plants proved unsatisfactory, will be replaced.

Please enclose a charge of twenty-five cents to help cover postage. No mail orders accepted for less than three dollars. Please write or print name clearly. Give **full** address.

Please order **early**. Orders filled in rotation by number.

All orders acknowledged, by card, with order number.

We grow Garden Chrysanthemums only — Cuttings will be ready for shipping from February 15th to July 15th. Plants will be well labeled, and well packed, assuring you beautiful, sturdy blooming plants, this fall.

We do not like to substitute—but would like you to tell us if we may on any not available, at the time we fill your order. These would be similar, or newer varieties.

A complete 40 page pamphlet, on growing Chrysanthemums.

NEW MUMS FOR 1955

75c per rooted cutting

FROM FRANCE—We are proud to offer, these French Novelties. Each of these has received an award of Merit from the National Chrysanthemum Society of France. All are vigorous sturdy plants, that grow to exhibition size. Should be disbudded. They are all unusual, and will cause much comment, and attract considerable attention, where shown.

AMATEUR J. F. FOURNIER—Large exhibition reflex bloom. The color is a bright orange red with amber reverse. Plant is medium height.

BAMBI—This makes a perfect ball. The color is milk white, petals are large. A sport form William Turner.

CLAUDETTE—Large incurving bloom, Pink and white streaked, Dwarf Grower.

LANDUEDOC—Brilliant bright red, tops of petals turn up, showing pale-gold. The bloom is solid, tight and well shouldered. Dwarf Grower.

LINETTE VAISSADE—Immense flower for exhibition, pale satin rose. The color is fresh and delicate. The bloom is quite different. The petals for part of their length, are quilled, then open and turn up making a hook. A beauty.

MME. GABRIELLE CALAS—Reflex exhibition, Petals often whirl. Bright satin rose color, with a paler reverse.

SUCY—Large exhibition incurving bloom, white tinted rose, which holds its color well.

The following two French varieties, will bloom in the garden about Oct. 1st. The plants are vigorous and healthy, very sturdy. May also be grown in pots. The flowers of exhibition size, were quilled, but open at the tips. At our nursery, they bloomed the first week of Oct. without disbudding, to seven inches and caused much comment from visitors.

HEROS JEAN GUIZONNIER—The color is bright purple, showing gold at the petal tips. Large full quilled bloom.

AMI CHARLES SOUCHET—This a sport of Heros Jean Guizonnier, exactly the same except for color, which is a beautiful, deep rosewood, petals gold tipped. We recommend these highly, as they are easy to grow, and unusual.

JAPANESE EXHIBITION VARIETIES

75c per rooted cutting

ALBATROSS—It is a solid flower, with pure white petals, incurving, and interlacing. Exhibition quality bloom.

PATSY ROBINSON—Lavender pink, large incurving and interlacing petals, broad and thick. A premier exhibition.

YELLOW DENNIS WROE—A yellow sport of Dennis Wroe,—A huge clear yellow, the bloom is the size and shape of Duke of Kent. Deep full reflex.

8 NEW 1955 INTRODUCTIONS, RELEASED BY DR. E. J. KRAUS

Dr. Kraus has consistently introduced varieties that continue to be tops in the early garden types. Exceptional.

75c per rooted cutting

BUTTERSCOTCH—(Dr. Kraus) Fully double deep golden amber, to amber yellow. Incurve to reflex, 4 to 4½ inch blooms. 24 in. tall, September through October.

CORLIE SCHMIDT—(Dr. Kraus) Fully double, cream-rose buds opening to pink. 4½ inch blooms which blend into yellow cream. Petals broad and reflexed. Long blooming and very lovely. Early Sept. Height—18 in.

DIVINITY—(Dr. Kraus) Pure white double with quilled petals. Early to bloom on long cutting stems, blooms 3 inches across, height 27 inches. A snow white flower—early Sept. through Oct. Beautiful.

MARGARET KELLER—(Dr. Kraus) Quilled cactus like petals, of pink to rose. Flowers 3½ inches across, height 20 inches. Early Sept. to Nov. Very fine and showy.

MOHAVE GOLD—(Dr. Kraus) Reddish buds opening to golden-bronze, reflex flowers 4½ inches across. Excellent plant, very early and long blooming. Height 24 inches, early Sept. to Nov.

ROSETONE—(Dr. Kraus) Double Lavender-rose, flower 4½ inches across. Incurved to reflex. Early blooming, long lasting, and weather resistant. Nice stems for cutting. Height 24 in. Early Sept. to Oct. Excellent.

SILETZ—(Dr. Kraus) Double, golden bud, opening to bright yellow, quilled flowers 2½ inches or more across, rain resistant, very long blooming. Height 18 inches. Excellent pot plant. Early Sept. to Nov.

THERESA STONE—(Dr. Kraus) Double rose-gold-cream combination, flowers 2-3 inches across, gives nice landscape effect with unusual coloring. Height 18 inches. Good pot plant. Early Sept.

TWO NEW 1955 INTRODUCTIONS FROM THE UNIVERSITY OF NEBRASKA

50c per rooted cutting

KIOWA—Brilliant orange-red. 1 to 1½ inch, fully double blooms, cover the entire plant when in full bloom. Hardy and frost tolerant. Height 26 inches. Sturdy plant, good cut. Late Sept.

NORTH PLATTE—This is a large early blooming garden mum that has resulted from crossing a greenhouse variety with hardy outdoor mums. It is perfectly hardy in spite of its greenhouse blood. Flowers are yellow with an orange shading fully double, 3-4 inches across. It has a long season of bloom—late Aug. to hard freeze. Height 26 inches. Good cut, long stems.
